RE: Patti Ann, M/037/003 and Standard II, M/037/011

On November 6, 1987 I spoke with Merv Lawton of Rio Algom concerning the above two referenced Atlas Mines. It appears that an agreement could not be reached between Atlas and Rio Algom for Rio Algom to mill the Patti Ann low grade stockpile. It does appear, however, that an agreement will be reached to mill the Standard II stockpile. I told Mr. Lawton that the Division would prefer to see the ore milled rather than reclaimed in place.
